

inpay integration overview

Name	Express	Professional	Enterprise
Target group	Small merchants	medium merchants	Large merchants, PSPs, anyone who want inpay completely integrated and requires full control
Time to implement	5 minutes (basic) to 1 hour (advanced)	5 minutes (basic) to 1 hour (advanced) plus time to send graphics to inpay	2-3 days
Description	Simply add a button to your payment page that will redirect the customer to our hosted payment wizard. The wizard guides the customer through the payment process and we inform you by email or through an API when the payment has been received	Same functionally as express, but with the addition that we create a bespoke version of our hosted payment page that matches the look and feel of your site	Your customers can pay without having to leave your site and you have full control of every inpay feature by accessing our backend API. You can even use our API to include inpay in a standalone software application
Setup fee	49 euro	199 euro	995 euro
Minimum monthly fee¹	19 euro	49 euro	99 euro
Documentation	Inpay Express API		Inpay Enterprise API

¹ This is the minimum amount that inpay will invoice per month. Example: if the total monthly fee is calculated to 30 euro and you use the Professional integration, inpay will round up the monthly fee to 49 euro. If the total monthly fee is calculated to 200 euro you will not be effected by this minimum monthly fee.
